📁 PROFESSIONAL EXPERIENCE

IntelliRent 🔗

Front-End Developer

As a Front-End Developer, I worked with club members on a project for managing rental properties in Malaysia to improve and make the UI more user-friendly.

Jan 2023 – Sep 2023
Johor Bahru

Mirco Semiconductor Sdn Bhd.

Software Engineering Internship

As a tester for the "DialysisManager" project and a designer on the "OnlyCars" project, I ensured high performance and functionality met standards. Additionally, I developed a CV generator for GitMeHired using Laravel, focusing on security, testing, optimization, and documentation, showcasing proficiency in software engineering.

Sep 2023 – Feb 2024
Johor, Malaysia

📁 PROJECTS

ISS Egypt Gateway 🔗

A student portal for UTM's International Student Society to help students with their academic and social lives.

I utilised **MERN Stack** to create a website for students that contains several features that would help them in their college lives and Arabic language support.

Sep 2023 – present

Marketify 🔗

A marketplace for students and faculty members inside the university's campus

I'm working with **MERN Stack** to create a marketplace website for students and faculty members inside UTM that will contain multiple language support, payment methods, recommendations, and more.

Dec 2023 – May 2024

Dorms

A student's accommodation system inside the university's campus

Built a full-stack website for students on campus utilising **HTML, CSS, JavaScript, PHP**, and my **SQL database**.

Apr 2022 – Jun 2023

CarGo 🔗

A car rental application inside Malaysia

Using the **Flutter** programming language, I created a smartphone app for renting automobiles and hosting cars for rent.

Nov 2022 – Feb 2023

🎓 EDUCATION

Universiti Teknologi Malaysia 🔗

Bachelor of Computer Science with Honours- Software Engineering

Current CGPA 3.78

Dean's List Semester for 6 semesters

Oct 2020 – Jul 2024
Johor Bahru

🌱 EXTRA-CURRICULAR ACTIVITIES

Head of the Egyptian Academic Committee

UTM ISS Egypt 23/24

Nov 2023 – present

Education Team 🔗

Global Buddies Club

Organized events, cultural exchanges, and community service for collaboration, and transformation.

Jan 2023 – Jan 2024

Amitabha Malaysia Orphanage Volunteer

AIESEC in Malaysia

I volunteered with AIESEC Malaysia at the Amitabha Orphanage, where I committed my time and abilities to teaching children. My primary responsibility was to provide instructional help in various topics, including Science, English, and the Arts. This experience enabled me to build excellent teaching tactics and communication skills while modifying my approach to fit the children's various learning requirements.

Feb 2022 – Mar 2023
Johor Bahru

Southern Leadership Bootcamp

AIESEC in Malaysia

Jan 2023

Attended AIESEC's "Southern Leadership Bootcamp," transforming my leadership and personal development journey profoundly.

Social Committee Member

UTM ISS Egypt 22/23

May 2023 – Dec 2023

Serving as a Social Committee Member at UTM ISS Egypt, organizing cultural activities.

AutoCar Workshop Participation

UTM ISS Egypt, ISS Yemen, ISS Iraq

May 2023 – Jun 2023

Workshop focused on designing, building, and programming autonomous robots with sensor integration.

Leaders 2 You Summit

AIESEC in Malaysia

Jun 2023

Organized special events for Leader 2 You Summit, enhancing attendee experiences with innovative engagement tactics.

AWARDS

AutoCar & Line-follower Robot Workshop Competition

UTM ISS Egypt, ISS Yemen, ISS Iraq

03 Jun 2023

Secured **First place** at the Auto Car Line Follower Robot Workshop Competition, showcasing exceptional problem-solving, technical skills, teamwork ability, dedication to mastering engineering challenges, and commitment to continuous learning in robotics.

Champion at Microsoft APAC AI Accessibility Hackathon

Microsoft

14 Jun 2023

participated in and achieved **First place** in the prestigious Microsoft APAC AI Hackathon. Our winning project, "A-EYE," was a groundbreaking AI-powered solution designed to empower visually impaired individuals by providing them with real-time auditory cues, thereby enhancing their confidence in navigating urban environments.

SKILLS

Programming

C++, Java, Flutter, JavaScript, MERN Stack, PHP, Laravel, JQuery, JSON, MySQL,

Teamworking

Demonstrated exceptional teamwork skills through diverse projects, international collaborations, robotics workshops, and community involvement, demonstrating a strong ability to thrive in collaborative environments.

Teaching and Mentorship

Volunteered to teach subjects like Science, English, and Arts to children at an orphanage. Developed strong communication and teaching skills, adapting content to different learning levels.

Project Management

I have successfully applied agile principles and leveraged Jira's robust platform to streamline project workflows, enhance collaboration among cross-functional teams, and drive project success.

Problem Solving

Proven problem-solving abilities showcased in various endeavors, such as developing innovative solutions in robotics workshops, addressing challenges in volunteer teaching, and devising AI-powered solutions for real-world issues.

Communication

Engaged in cultural exchange activities and volunteered abroad. Effectively communicated with individuals from diverse backgrounds, enhancing cultural sensitivity and adaptability.

LANGUAGES

Arabic | English | French
